

Get precise, fair warehouse storage pricing that only charges for the space your products actually use

PER PALLET STORAGE MODEL

\$\$\$\$

\$\$\$\$

\$\$\$\$

\$\$\$\$

Know what you are going to pay, regardless of the type of storage location

CUBIC FOOTAGE STORAGE MODEL

\$\$\$\$

\$\$\$

\$\$

\$

You pay only for the space your product physically occupies each month

HOW IT WORKS

Measure Daily

Every day, we measure the total cubic feet of your inventory in our warehouses

Sum & Divide

To get average cubic inventory, we sum your daily cubic feet and divide by days in the month

Multiply Rate

Average cubic feet x your per cubic foot rate = your monthly storage cost

1,500

Total cubic feet
(Sum of daily inventory levels)

30

Days in the
month

50

Average daily
cubic feet

50
